PROGRAM LOADING INSTRUCTIONS FOR PRO-AG SOFTWARE PRODUCTS

In <u>Commodore 64 mode</u>, the load command is:

LOAD"0:*",8,1   ⟨RETURN⟩

Use this for all programs, including the User's Club Newsletter.

If a disk fails to load properly, try the following command:

Cyber-Farmer 64: LOAD"CF 64",8 ⟨RETURN⟩
                  then RUN ⟨RETURN⟩
Farm Manager: LOAD"BOOT64",8 ⟨RETURN⟩
                  then RUN ⟨RETURN⟩
Hog Farm 64: LOAD"HF 64",8 ⟨RETURN⟩
                  then RUN ⟨RETURN⟩
Newsletter: LOAD"NEWSLETTER",8 ⟨RETURN⟩
                  then RUN ⟨RETURN⟩

In <u>Commodore 128 mode</u>:

1. Turn on all equipment except the 128 computer.
2. Insert the program disk in the drive; close drive door.
3. Turn on the 128 computer. The program loads automatically.

If a disk fails to load properly, try the following command:

Cyber-Farmer 64: RUN"CF" ⟨RETURN⟩
Farm Manager: RUN"BOOT.128" ⟨RETURN⟩
Hog Farm 64: RUN"HOG FARM 128" ⟨RETURN⟩
Newsletter: RUN"NEWSLETTER.128" ⟨RETURN⟩

PRO-AG SOFTWARE CO.
Box 628 - Phone 515-332-4309
Humboldt, Iowa 50548

SPECIAL NOTES FOR ALL USERS:

1. For all programs — you must remove the disk's write-protect tab when preparing to change screen colors or other system information. When finished, replace the tab.
2. When making a backup copy of ANY data disk, cover the write-protect notch of that disk to prevent its accidental erasure. The write-protect tab must be removed before using any working data disk.
3. If you are still having difficulties with your program, call the Pro-Ag Help Line (515) 824-3732 for additional assistance.
